

APPENDIX D1: PEER EVALUATION

Group Name : _____

Name of Assessor : _____

Average : _____

CATEGORY	3 pts. Full contribution	2 pts. Partial contribution	1 pt. Minimal contribution	0 pts. No contribution	SCORE			
Leadership	This member of our group worked well with others because he/she provided input and leadership in setting a plan for accomplishing this group project.	This member of our group worked well with others but allowed some members to lead while he/she followed. He/She participated in discussion to formulate a basic plan for accomplishing this project.	This member of the group worked well together, but allowed others to take charge while he/she simply followed in formulating a plan for accomplishing this project.	This individual did not work well with the group as he/she either dominated and/or withdrew from planning for accomplishment of this project.				
Brainstorming	This member participated freely in all solutions and gave many suggestions thinking "outside the box". Participated in discussion of the key elements/issues in the case study, and was able to apply many concepts and principles until one decision was made.	This member participated freely in the suggestion of a solution. Participated in discussion of the key issues/elements in the case study, and could apply several concepts and principles until one decision was made.	This member only participated in the suggestion of a solution when called upon. Participated in discussion of the key issues/elements in the case, but could only apply one concept and principle until one decision was made.	This member did not contribute at all in any solution, and gave no suggestions. Did not participate in discussion of the key issues in the case study and could not apply any concepts and principles.				
Prepared	This member showed up on time to all group meetings, and was always prepared for their portion of the project. It is obvious that this member has done extensive research before our first group meeting.	This member was late once to a group meeting and was mostly prepared for their portion of the project. It is obvious that this member has done a substantial amount of research before our first group meeting.	This member was late twice to a group meeting, and was somewhat responsible for their portion of the project. It is obvious that this member has done minimal research before our first group meeting.	This member was late more than two times and/or did not show up for one or more group meetings, and was unable to show responsibility for their portion of the project. This member has not done any research before our first group meeting.
